ALBERGO DIFFUSO

Monastero Santa Teresa

Palazzo a corte con Mignano

Palazzo Manieri-Zuccaro

The project of Albergo Diffuso

After years studying and working around the world, Antonello Rizzello, a young entrepreneur, decides to come back to his “sleeping beauty: Nardò”. An art city, rich of palaces, towers, eclectic villas, castles, masserie, monumental gardens, natural parks, extended on a territory of 33 km, whose 23 on the coast with a crystalline and unpolluted sea; a real melting pot of Greek, Roman, Norman, Spanish and French dominations.

He decides to restore his three monumental palaces, to open them to culture and to share the “beauty” with the most exacting traveller.

So, he creates the first Albergo Diffuso in Nardò, offering his guests the possibility of staying in the splendid rooms, rich of history, of the three palaces, once inhabited by numerous eminent figures of the aristocracy of the Kingdom of Naples, of the Two Sicilies and of the ecclesiastical world.

The traveller has the opportunity to dine in the exquisite

restaurant of the chain Chateaux Hotel Collection, discovering Salento tastes and enjoying the panoramic view from the terraces of the palace with Mignano; he could also admire and maybe buy the artworks of the temporary and permanent exhibition in the majestic halls of Monastero Santa Teresa, dominated by the sculptures created by Giovanni Maria Tarantino. On the noble floor of Sambiasi palace – ex Monastero Santa Teresa, in the large frescoed halls, one can lose oneself in reading an interesting book from the international library. The most demanding travellers can stay in the deluxe rooms with access to the garden with the citrus grove and to the private pool.

Antonello Rizzello, president and founder of Dimore Storiche Nereine (Nardò historic buildings), organizes many cultural events and guided tours among noble palaces, castles, gentilitial and eclectic villas, masserie and secret gardens.
